Application # 01-50003685

Terry Hooper

On Jan. 2, 2002 I was on your property doing a
Re Inspection of an existing tank, at that time I
found that your septic system was failing. At
this time you will need to fill out a Repair
Application at our office, so that we can issue
you a repair permit. With this permit you can get
the system fixed and upon completion of the
repair we then can discuss your original application.
Questions call Joe W. etc.
