RE: Status of Existing Tank Permit Application #06-5-15555R

Dear Ms. Cook,

On September 20, 2006 an Environmental Health Specialist from the Harnett County Health Department attempted to evaluate your property for the purpose of issuing an Existing Tank Permit. This individual was unable to evaluate your property for one or more of the following reasons.

- 1. Uncover outlet lid on septic tank and break seal – **I placed a blue flag at correct lid.**
- 2. Have system pumped out
- 3. Replace sanitary T
- 4. Other – **You will need to have a soil evaluation done because you are going from a 3 bedroom to a 4 bedroom home. You will need to add drain field line. Call me between 8 – 9:00 a.m. at the number listed if you have questions.**

When you have completed this and called 893-7547 to confirm that the items mentioned have been corrected, we will then reschedule your property for evaluation.

Sincerely,

Joe West, R.S.
Environmental Health Specialist
Harnett County Department of Public Health
