Re: Inspection of 24'x 25' Concrete Pad
2741 Ponderosa Drive
Cameron, NC

To: Path/Home Incorporation

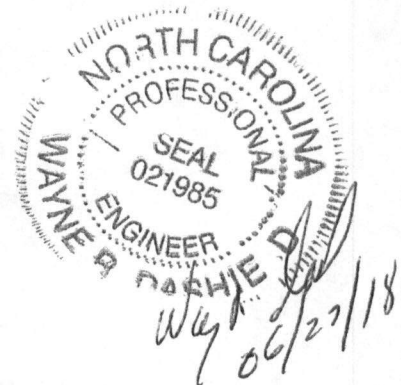

On June 26, 2018 I made an on-site visit to 2741 Ponderosa Drive in Cameron North Carolina. The purpose of this visit was to verify the thickness of the 24'x 25' concrete pad that will be used for the installation of a light weight metal storage building.

The 24'x25' has a minimum thickness of 6" and is in good condition. However I will recommend that 5/8" redhead bolts be install @ 5' O.C. and 12" of all corners around the per minter of the pad.

If I can be of any more assistance, please feel free to contact me.

Yours truly,

Wayne R. Dashfield, PE
