Subject: RE: Duncan Ind Park Concrete Batch Plant

Hes doesn't need to be charged anything yet cause he has not been approved by DRB based on EH. He needs to submit a soils report that describes what he wants to do which includes addressing all the septic easements he is removing and what systems he proposes on moving to where. Then we can address what he will be charged for whatever work needs to be done.

Subject: Duncan Ind Park Concrete Batch Plant

Good afternoon, Oliver. Please let me know what I need to tell the gentleman with the concrete plant about EH. Let me know what to charge him also please. I will be at the insurance meeting this afternoon and out tomorrow.

Thank you,
Donna M. Johnson
