

COMMENTS:

3/9/2011 Spoke w/ Kathy w/ Coldwell Banker about an Operations Permit for lot 36. The house was given a CO & no indication that the Operations Permit was issued or that part of the septic installation was checked. I advised her to call someone who could uncover the tank & parts of the system so we could check it, & have them call me.

3/10/2011 Kathy faxed a copy of the Operations Permit. Because some of the info., including signature & date were not legible I was advised by Janet Smith w/ legale not to sign the permit again
