* ON April 25th 2011 Gerald Temple called to tell me of
power line going in at permitted location. I went
to check to see if Septic had been driven on or destroyed
per install of power line. I T seemed as if tractor (Buckeye)
had gotten on end of power lines R) Jones went to
Home, Took and first part of lines seemed not to be
disturbed. Waiting on W/L for Final Inspection (OP) ^{for} ^{Pr} ⁱⁱⁱ.
