Beth,

Thank you for following up with Mr. Hughes. The site plan looks fine with me. Go ahead and submit the site plan to Environmental Health whenever you get a chance.

Thanks,  
Snow Bowden

Good morning!

The customer just got back with me so I've attached the newly updated site plan. He said the setback to Old Stage is 26'. I will go ahead and submit that revision to Environmental Health as soon as I get the OK from you.

Thank you,

Snow,

That sounds great. I've called the customer to try and get that corner lot side setback. Once I get it I'll let you know!

Thank you,

**Beth Petrich**

Beth,

Thank you for sending the updated site plan, and checking in with the Town before any other steps were taken. The new site plan looks fine. Harnett County can go ahead and move forward with conducting a perk test for this property. The only thing I would like to see added to the site plan is the side setback for the left side (if you are looking at the house).

Thanks,  
Snow Bowden

Hi Snow,

This customer emailed me a new site plan today and since it is in the Town of Erwin I wanted to see if this new site plan was OK with you before I forwarded it on to Environmental.

Thank you!

Hey Beth,

Here is the revised site plan for 15 Pump Station Road in Erwin. The house box size went from 71 x 73 to 61 x 66. The distance from the back of the house to the back of the property was also incorrect on the original site plan. Thanks for your assistance with this septic permit.
