**RE: Failing system located at: 76 Stonewall Court, Spring Lake, N.C. ~ Lt .25 Westfield Farms  
PIN# 0513-79-6293.000 – Complaint #s #1107 and #1306**

Dear Mr. and Mrs. Velarde,

Due to complaints, previous on-site inspections have been made on your property concerning a failing septic system. On June 24, 2010 an on-site inspection was made by an Environmental Health Specialist and observed a failing septic system.

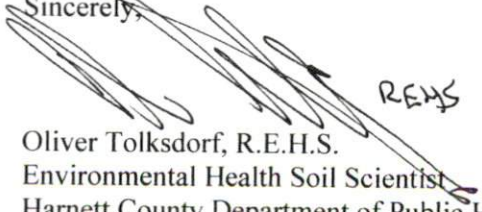

You are hereby notified that you are violating the Rules and Regulations adopted by the North Carolina Commission for Health Services in accordance with requirements of Article 11 Chapter 130A-335 (a) of General Statutes of North Carolina. Any person owning or controlling a residence, place of business, or place of public assembly containing water using fixtures connected to a water supply source shall discharge all wastewater directly to an approved wastewater system permitted for that specific use. A wastewater system may include components for collection, treatment and disposal of wastewater.

An Improvement Permit for repair was issued on June 25, 2010 to install a new drain field. **You are required to correct this problem within 30 days from this date.**

Please be advised that any action you may take without an improvement permit does not absolve you of the responsibility for correcting this public health problem, according to health department standards. The continuation of this violation may constitute a health hazard, and **if you do not comply within the allotted time frame we will be forced to obtain legal action.**

I can be contacted at 893-7547 Monday-Friday, from 8:00-9:00 a.m.

Sincerely,

  
REHS  
Oliver Tolksdorf, R.E.H.S.  
Environmental Health Soil Scientist
