PRODUCT SPECIFICATION SHEET

PureFlow® PolyAlloy PEX Crimp Fittings and Crimp Rings for ViegaPEX™ and ViegaPEX™ Ultra SDR-9 Cross-Linked Polyethylene (PEX)

Scope

This product specification designates the requirements for Viega PureFlow PolyAlloy PEX Crimp fittings and black copper crimp rings to be used as connections for ViegaPEX tubing in 3/8", 1/2", 3/4" and 1" sizes. These fittings are approved for use with both ASTM Standard F876 PEX tubing and F2262 PEX-Aluminum-PEX (PAX) tubing.

Materials

All PolyAlloy PEX Crimp fittings are manufactured from a polysulfone/polyphenylsulfone blended polymer (Acudel). The material is listed with NSF, International for potable water contact. PolyAlloy PEX Crimp fittings exhibit excellent resistance to the corrosive effects of water and are well suited for hot water applications. The black copper crimp rings are manufactured from UNS C10200 or UNS C12200 copper alloy. Rings are annealed to 35-45 Rockwell 15T scale for ease of crimping. The black coating is not a paint but a surface treatment which does not add to the dimensions of the ring.

Marking and Certification

PolyAlloy PEX Crimp fittings are marked with F877 and/or F2159 ASTM Standards and the NSF-pw mark indicating third party certification by NSF, International. Rings are marked with SDR-9 and/or PEX, F1807 and manufacturer's mark. NSF conducts random on-site inspections of Viega manufacturing facilities and independently tests PureFlow PolyAlloy PEX Crimp fittings for compliance with physical, performance, and toxicological standards.

Recommended Uses

PolyAlloy PEX Crimp fittings and black copper crimp rings are intended and recommended for use in potable water distribution systems with ViegaPEX and ViegaPEX Ultra tubing meeting the requirements of ASTM F876. Maximum design temperature and pressure ratings are 160 psi @ 73°F and 100 psi @ 180°F. For information on other hot and cold applications not listed here, consult with your Viega representative.

Handling and Installation

PolyAlloy PEX Crimp fittings are corrosion and impact resistant. However, they are still softer than metals and must be protected from UV exposure and petroleum products which can damage them. Use of these materials in hot and cold water distribution system must be in accordance with good plumbing practices, applicable code requirements, and current installation practices available from Viega. Contact a Viega representative or the applicable code enforcement bureau for information about approvals for specific applications.

Property	ASTM Test Method	Typical Values	
		English Units	SI Units
Specific Gravity	D 792	1.28	1.28
Melt Flow, g/10 min.	D 1238	12	12

PRODUCT SPECIFICATION SHEET

PureFlow® PolyAlloy PEX Crimp Fittings for ViegaPEX™ and ViegaPEX™ Ultra

Quality Assurance

When the product is marked with the ASTM F2159 designation, it affirms that the product was manufactured, inspected, sampled and tested in accordance with these specifications and has been found to meet the specified requirements.

Certification

NSF-pw - NSF International Performance and Health Effects (Standards 14 & 61)

NSF Certified to NSF-U.P. Code - approved for Uniform Plumbing Code, listed to ASTM F2159.

Intertek Testing Services (Warnock Hersey) - certification to CSA B137.5 (Canadian Standards Association)

NOTE: All fittings may not be listed with each organization shown.

Pressure Drop Table For PolyAlloy PEX Crimp Fittings Expressed in Equivalent Length of Tubing in Feet

SIZE	COUPLING	ELBOW	TEE RUN	TEE BRANCH
1/2"	7.1	16.5	7.2	17.9
3/4"	4.8	17.4	6.6	17.7
1"	4.5	18.0	6.0	17.0

This information is based on tubing nominal flow rate, (8 fps flow velocity)

GO/NO GO Gauges: Viega offers GO/NO GO gauge for easy testing of the finished crimp.

PureFlow PolyAlloy PEX Crimp Fittings Typical Fitting Insert Dimensions

SIZE	A	B	L
1/2"	.315	.473±.003	.700+.020
3/4"	.460	.668±.003	.700+.020
1"	.610	.866±.003	.850+.020

NOTE: Dimensions are in English units. Tolerances shown are ASTM requirements. Viega PolyAlloy PEX crimp fittings are manufactured within these specifications.

Copper Crimp Ring Dimensions Before Crimping

SIZE	D	W	T
1/2"	.750	.325	.056
3/4"	1.00	.325	.056
1"	1.25	.365	.049

All dimensions shown are nominal.

Crimped Diameter Dimensions

Final crimped outside diameters shall fall within these dimensions when measured with a micrometer or caliper.

SIZE	MINIMUM	MAXIMUM
1/2"	ø 0.700"	ø 0.715"
3/4"	ø 0.945"	ø 0.960"
1"	ø 1.175"	ø 1.190"

PureFlow® Warranty

VIEGA LIMITED WARRANTY PUREFLOW® POTABLE WATER PLUMBING SYSTEMS

Subject to the conditions and limitations in this Limited Warranty, VIEGA LLC (Viega) warrants to owners of real property in the United States that the components in its PureFlow Plumbing Systems (as described below) when properly installed by licensed plumbers in potable water systems, under normal conditions of use, shall be free from failure caused by manufacturing defects for a period of ten (10) years from date of installation. This warranty also applies to those supplying products covered by this warranty and installed on the property.

PureFlow Plumbing Systems and components covered by this ten year warranty are:

ViegaPEX™ and ViegaPEX™ ULTRA cross linked polyethylene (PEX) tubing, FostaPEX®, MANABLOC®, Minibloc™, or manifolds sold by Viega and using approved connections sold by Viega installed together in manifold plumbing systems.

ViegaPEX and ViegaPEX ULTRA cross linked polyethylene (PEX) tubing or FostaPEX installed with PEX Press fittings and PEX Press sleeves sold by Viega.

ViegaPEX and ViegaPEX ULTRA cross linked polyethylene (PEX) tubing and crimp insert fittings installed with copper crimp rings and meeting the specifications of ASTM F1807 and certified/listed for conformance with ANSI/NSF Standards No. 14/61 and Viega Poly alloy™ fittings.

Power tools and jaws used with PEX Press fittings are warranted by the manufacturer and Viega extends no separate warranty on those tools or jaws. Viega warrants that PEX Press hand tools sold by Viega, under normal conditions of use, shall be free from failure caused by manufacturing defects for a period of two (2) years from date of sale. Viega warrants that PEX Crimp hand tools sold by Viega, under normal conditions of use, shall be free from failure caused by manufacturing defects for a period of twelve (12) months from date of sale.

Viega warrants that properly installed PEX lav and closet risers and riser accessories manufactured and/or sold by Viega shall be free from failure caused by manufacturing defects for a period of two (2) years from date of installation.

Under this limited warranty, you only have a right to reimbursement if the failure or leak resulted from a manufacturing defect in the products covered by this warranty and the failure or leak occurred during the warranty period. You do not have a remedy or right of reimbursement under this warranty and the warranty does not apply if the failure or resulting damage is caused by (1) components in the plumbing system other than those manufactured or sold by Viega; (2) not designing, installing, inspecting or testing the system in accordance with Viega's installation instructions at the time of the installation, applicable code requirements and good plumbing practices; (3) improper handling and protection of the product prior to and during installation, inadequate freeze protection, exposure to water pressures or temperatures in excess of the limitations on the tubing or application of unauthorized solvents or chemicals; (4) acts of nature such as earthquakes, fire, flood, or lightning. In addition, the warranty does not apply if distribution lines and their connections to the MANABLOC system are not ViegaPEX or FostaPEX tubing or connections sold by Viega.

In the event of a leak or other failure in the system, it is the responsibility of the property owner to obtain and pay for repairs. Only if the warranty applies will Viega be responsible for reimbursement under this warranty. The part or parts which you claim failed should be kept and Viega contacted by writing to the address below or telephoning 1-877-843-4262 within thirty (30) days after the leak or other failure and identifying yourself as having a warranty claim. You should be prepared to ship, at your expense, the product which you claim failed due to a manufacturing defect, document the date of installation, and the amount of any claimed bills for which you claim reimbursement. Within a reasonable time after receiving the product, Viega will investigate the reasons for the failure, which includes the right to inspect the product at Viega and reasonable access to the site of damage in order to determine whether the warranty applies. Viega will notify you in writing of the results of its review.

In the event that Viega determines that the failure or leak and any resulting damages were the result of a manufacturing defect in the products and occurred during the time periods covered by this warranty, Viega will reimburse the property owner for reasonable repair or replacement charges to include drywall, flooring, and painting costs, as well as damages to personal property resulting from the failure or leak. VIEGA SHALL NOT BE LIABLE FOR CONSEQUENTIAL ECONOMIC LOSS DAMAGES UNDER ANY LEGAL THEORY AND WHETHER ASSERTED BY DIRECT ACTION, FOR CONTRIBUTION OR INDEMNITY OR OTHERWISE.

THE ABOVE LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IF FOUND APPLICABLE, ANY IMPLIED WARRANTIES ARE LIMITED TO THE DURATION OF THE TIME LIMITS SET OUT IN THIS WRITTEN WARRANTY. Other than this limited warranty, Viega does not authorize any person or firm to create for it any other obligation or liability in connection with its products. This written warranty applies for the full term of the applicable warranty regardless of any change of ownership in the property.

Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on the duration of implied warranties in certain types of transactions, so the above exclusion or limitations may not apply to you. This limited warranty gives you specific legal rights and you also may have other rights which vary from state to state. This warranty shall be interpreted and applied under the law of the state in which the product is installed.

PureFlow PEX Crimp Fitting System

Viega offers the world's largest selection of PEX tubing, tools and fittings used to install the MANABLOC Water Distribution System. With more than 30 years of outstanding performance, Viega also continues to expand the choices of fittings, available with PureFlow Bronze PEX Press, Brass PEX Crimp and Poly Alloy PEX Crimp -- to meet a range of applications.

Two Ways to Make a Connection

PEX Crimp Fittings

The PureFlow PEX Crimp Fitting System, with more than 25 years of outstanding performance, continues to offer a reliable method for making PEX connections. Viega allows plumbers to expand their choice of fittings to both metallic and PolyAlloy, depending on which will best meet the environmental conditions in different areas of the country.

Like PEX Press, the PEX Crimp System, requires no glue, no solder, no torches and no lubricants. PureFlow PEX Crimp fittings range in size from 3/8" to 1" and hand tools are available in these sizes as well.

PolyAlloy Fittings are corrosion resistant, and ideal for aggressive soil and water conditions. These are available in tees, elbows, couplings and adapters from 3/8" to 1".
