

July 5, 2006

Dr. David McCloy
OSWS Regional Soils Specialist
130 Williams Road
Southern Pines, N.C. 28387

Dr. McCloy,

As part of the review process for the On-Site Wastewater Program, on June 19 2006, I reviewed a permit that Heath Cain had written for lot 182 in Yorkshire Plantation. Upon reviewing the permit, the associated field notes, and the lot itself, I found major discrepancies in comparison with my own findings—including profile descriptions, system layout, and inaccurate documentation. After consultation with Oliver Tolksdorf (Harnett County Soil Scientist), Graham Byrd (Environmental Health Supervisor), and you, I recommend a formal review of Mr. Cain's OSWS authorization.

Sincerely,

Bryan McSwain, R.S.
Harnett County Environmental Health
On-Site Wastewater Program Specialist
