Ballard Woods S/D -  
Harnett Co...

Amy, I have spoke with the developers and DOT regarding Ballard Woods, we have agreed to allow the permits that were applied for on Tuesday go through, however all others will be handled on a case by case basis therefore if anyone else applies for permits in Ballard Woods see me or Joseph before you allow them to proceed in the event we are not available turn them away until we are. Thanks

Mark,

Mr. Grey Wilson with Ballard Woods, LLC has contacted me regarding his building permits. He has been in contact with David Plummer, who does the subdivision inspections in our office. Mr. Wilson is gathering all the information that we have requested. Mr. Wilson has stated that it will take a few days for him to get us all the information that we have requested. He seems honest and sincere in his efforts. He has requested the release of the building permits for two pre sales that are under contract. If you would like to release these two permits and hold all others until we make further progress, I think that would be ok. I think Mr. Wilson will be diligent in his efforts to get the streets added to the state system. We will copy you on all correspondence regarding the Ballard Woods Subdivision.

Thanks for the assistance on this matter,  
Bill
