Homeowners Applying to Build Their Own Home

Please answer the following questions then see a Permit Technician to determine if you qualify for permit under Owners Exemption. Questionnaire per G.S. 87-14 Regulations as to Issue of Building Permits (Memo available upon request)

1. Do you own the land on which this building will be constructed? ___ Yes ___ No
2. Have you hired or intend to hire an individual to superintend and manage construction of the project? ___ Yes ___ No
3. Do you intend to directly control & supervise construction activities? ___ Yes ___ No
4. Do you intend to schedule, contract, or directly pay for all phases of construction work to be done? ___ Yes ___ No
5. Do you intend to personally occupy the building for at least 12 consecutive months following completion of construction and do you understand that if you do not do so, it creates the presumption under law that you fraudulently secured the permit? ___ Yes ___ No

I hereby certify that I have the authority to make necessary application, that the application is correct and that the construction will conform to the regulations in the Building, Electrical, Plumbing and Mechanical codes, and the Harnett County Zoning Ordinance. I state the information on the above contractors is correct as known to me and if any changes occur including listed contractors, site plan, number of bedrooms, building and trade plans, Environmental Health permit changes or proposed use changes, I certify it is my responsibility to notify the Harnett County Central Permitting Department of any and all changes.

EXPIRED PERMIT FEES 6 Months to 2 years permit re-issue fee is \$150.00. After 2 years re-issue fee is as per current fee schedule.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office for National Statistics 2000). The number of people aged 65 and over is expected to increase to 16.5 million by 2020, and the number of people aged 75 and over to 8.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people, and the need to ensure that they are able to live independently and actively in their own homes. This has led to a number of initiatives, including the development of the National Framework for Older People (Department of Health 1999) and the National Strategy for Older People (Department of Health 2000). The National Framework for Older People sets out the government's commitment to older people, and the National Strategy for Older People sets out the government's strategy for addressing the needs of older people.

The National Framework for Older People and the National Strategy for Older People are both important documents that set out the government's commitment to older people. They provide a clear framework for the development of services for older people, and they provide a clear strategy for addressing the needs of older people. They are both essential documents for anyone who is involved in the development of services for older people.

the 1990s, the most common form of internationalization strategy for small and medium-sized enterprises (SMEs) has been export-oriented. In the early 1990s, 80% of SMEs used an export-oriented strategy (Gardner and Dunne, 1993). This was due to the fact that SMEs were often limited by their financial resources and the need to maintain a close relationship with their customers. Export-oriented strategies allowed SMEs to reach a wider market without the high costs of establishing a presence in foreign markets. However, in the late 1990s and early 2000s, there was a shift in the internationalization strategies of SMEs. Many SMEs began to use more aggressive strategies, such as joint ventures, acquisitions, and strategic alliances, to enter foreign markets. This was due to the fact that SMEs were becoming more financially independent and were able to bear the costs of establishing a presence in foreign markets. Additionally, the need to maintain a close relationship with their customers was less important for SMEs as they became more financially independent.

The shift in internationalization strategies of SMEs was also influenced by the changing nature of the global economy. In the late 1990s and early 2000s, the global economy was becoming more integrated, and SMEs were able to reach a wider market more easily. This was due to the fact that the costs of entering foreign markets were decreasing, and the need to maintain a close relationship with their customers was less important. Additionally, the need to maintain a close relationship with their customers was less important for SMEs as they became more financially independent.
