IF RENTING, LEASING, ETC., LIST PROPERTY OWNER NAME _____

COLONIAL HILLS

SUBDIVISION NAME LOT #/TRACT # STATE RD/HWY SIZE OF LOT/TRACT

Type of Dwelling: Modular Mobile Home Stick built Other _____

Number of bedrooms _____ Basement

Garage: Yes No Dishwasher: Yes No Garbage Disposal: Yes No

Water Supply: Private Well Community System County

Directions from Lillington to your site: _____

In order for Environmental Health to help you with your repair, you will need to comply by completing the following:

1. A "surveyed and recorded map" and "deed to your property" must be attached to this application. Please inform us of any wells on the property by showing on your survey map.
2. The outlet end of the tank and the distribution box will need to be uncovered and property lines flagged. After the tank is uncovered, property lines flagged, underground utilities marked, and the orange sign has been placed, you will need to **call us at 910-893-7547 to confirm that your site is ready for evaluation.**

Your system must be repaired within 30 days of issuance of the Improvement Permit or the time set within receipt of a violation letter. (Whichever is applicable.)

By signing below, I certify that all of the above information is correct to the best of my knowledge. False information will result in the denial of the permit. The permit is subject to revocation if the site plan, intended use, or ownership changes.

Colonial Hills Issue

On Wednesday June 6 Andrew went to check the installation of a new newly permitted septic system on lot 59 Colonial Hills (28 Belmont Ct). The contractor then informed him that he had dug into an existing septic system. Andrew checked the system but had the contractor leave it open until he discussed the issue with me and Jimmy. It was determined that the system that was dug into was from lot 50 (97 Downing Ct) which was permitted and finalized by Joe West on 6/6/07.

On Thursday June 7 I accompanied Andrew out to lot 59 to see if we could use the new system as permitted. It was determined that during installation the old system (lot 50) was excavated and portions removed and will not have a negative effect on the new system for lot 59. The new system was covered up but not finalized. Currently there are two system on lot 59 and the newly installed system cannot be approved until a 20' separation is established between the new system and the old system. Also the old system needs to be relocated completely onto lot 50.

Dear Mr. & Mrs. Smith,

I am writing to you in regards to the waste water system that was initially installed on your lot in 2007. As you are aware, on June 6, 2018 my office discovered that a portion of the drain lines for this system was installed on an adjoining property.

After reviewing the documentation, we contracted with Temple Backhoe Service to perform the repair work on your lot. The original drain lines were disconnected from the tank and portions of the lines were removed at the property line to prevent any flow onto the adjoining property. New drain lines were installed that are totally located with the boundaries of your lot. Both lots now have a separate functioning waste water system.

Thank you for your corporation in getting this matter resolved. If you have any additional questions regarding this matter, please do not hesitate to contact Oliver Tolksdorf @ 910-893-7547.

Sincerely,

A handwritten signature in black ink, appearing to read "John Rouse, Jr.", with a long, sweeping flourish extending to the right.

John Rouse, Jr.
Health Director
