

## COMMENTS:

5/7/2012 Bm Initial visit, handle broken on outlet lid  
sewer above lid. No failure in yard. Homeowner will contact  
septic contractor who will then call to set up meeting to  
address problem.

5/8/2012 Spoke w/ DC Carter he said that after  
20-30 ft of drain line, the line is "smashed". I told Mr. Carter  
to ask the homeowner if he wanted ~~to~~ to replace the "smashed"  
product or if he wanted a new drain field. Mr. Carter said  
he would find out + let me know. DC Carter called back + said  
the homeowner wanted a new drain field
