Re: Permit 08-50020228 3630 Walker Rd.

As per your request, I have attached the manufactures specs and the label from the box of the product we use to vent the bathroom exhaust fan in the home listed above. This is not a UL 181 listed product and is not limited to the 14 foot restriction. We purchase and utilize this product for this application, primarily for this reason and have done so for several years. I hope this information is helpful to you in this matter.

I thank you for your help and look forward in dealing with you again in the future. Please feel free to call me @ 910-443-3066

Sincerely: Al Moore Technical Services Heating & Cooling Inc. Subj: Date: From: To:
