Applicant: Jason Tremont, Cedar Creek Building

Technician: Richard Del Conte

Mr. Tremont came into the office today to do a change of contractor. His partner in Hampton custom builders was David Dail. He notified us that David was no longer a partner in the company. Since David was the license holder for the company, Jason changed the contractor on file to Cedar Creek Building for which he is the license holder.

I attempted to contact Mr. Dail at least 4 times over a 2 day period, without success. Since then Cedar Creek obtained the CO for the home and the application has been completed.
