9/4/2008

To: Inspections  
From: Builders FirstSource Truss Department  
Subject: Lot 1 Pioneer Farms

Dear Sirs,

This letter is written per the request of the builder in regard to the "C2" trusses in our roof system. During the initial punch walk three of these trusses were noted as having knots in the chords and although they were not broken the framer elected to add material to strengthen the truss against any future problem with the knots. This additional 2x4 material and OSB were not required for the condition but neither is their addition a detriment to truss performance. I observed these trusses on a site visit on September 3rd, 2008 and found the system to be within tolerances and well installed.

Please call me if you have any further questions on this project or on any other truss project.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Chuck Rogers'.

Chuck Rogers  
Builders Firstsource Truss
