James Herman, PE - Owner

Consulting Structural Engineers

850-8277

TO: TRADEMARK BUILDERS, INC. P.O. BOX 142 WILLOW SPRINGS, NC 27592

## \*\*\*\*\*\*\* FIELD CHANGE ORDER \*\*\*\*\*\*\*

VIA FAX: 552-1588

PROJECT #: 8-2013-A

PAGE: 1 of 4

DATE: March 23, 2009

LOCATION: Pelton Residence

PLANS REF: Pelton Residence for Trademark Builders, Inc by Matt Freeman Southern Engineers' Project #: 8-2013

## THE FOLLOWING CHANGE(S) OR PROPOSED CHANGE(S) LISTED BELOW ARE DEVIATIONS OR CLARIFICATIONS FOR THE ABOVE REFERENCED PLANS:

Shifted Valley Support: The Roof Plan and Second Floor Plan shows a (3) stud support for the valley at the front-left side of the unfinished "Storage" area that is located at the right side of the second floor. According to information provided by the builder, the 1.75x9.25 LVL valley option was installed at the referenced valley as noted on page two. Be advised that it will be structurally acceptable to shift the valley support forward to incorporate it into the 5'-0" tall kneewall as shown on page three. The new valley support location shall be supported down to a new (2)1.75x9.25 LVL in the Laundry Room as shown on page four. Also note that the header that is located above the pocket door at the back of the Laundry Room shall be either a minimum of a (2)2x12 or a (2)1.75x9.25 LVL.

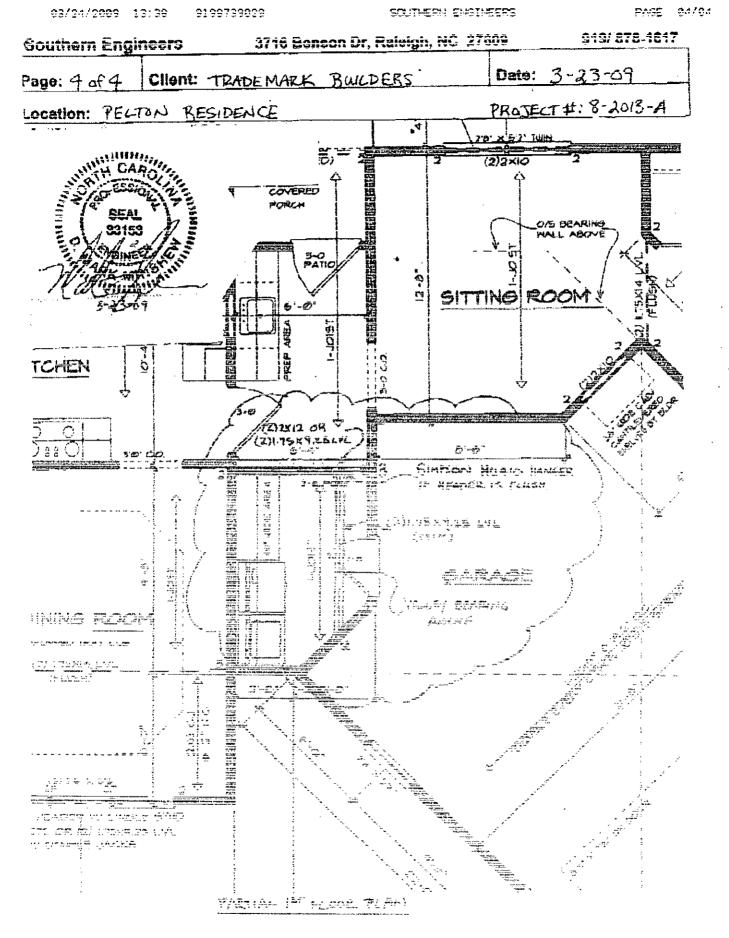

In closing, I trust that this letter fulfills your requirements at this time. Should you have any further questions, please do not besitate to call.

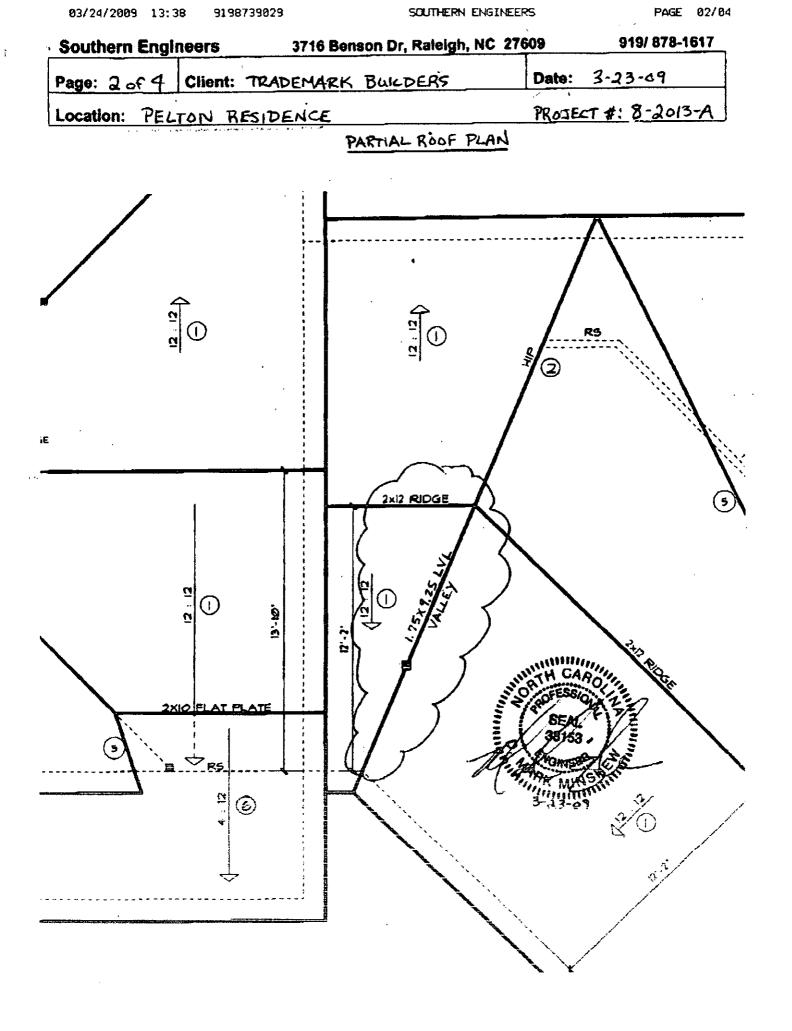

Sincerely,

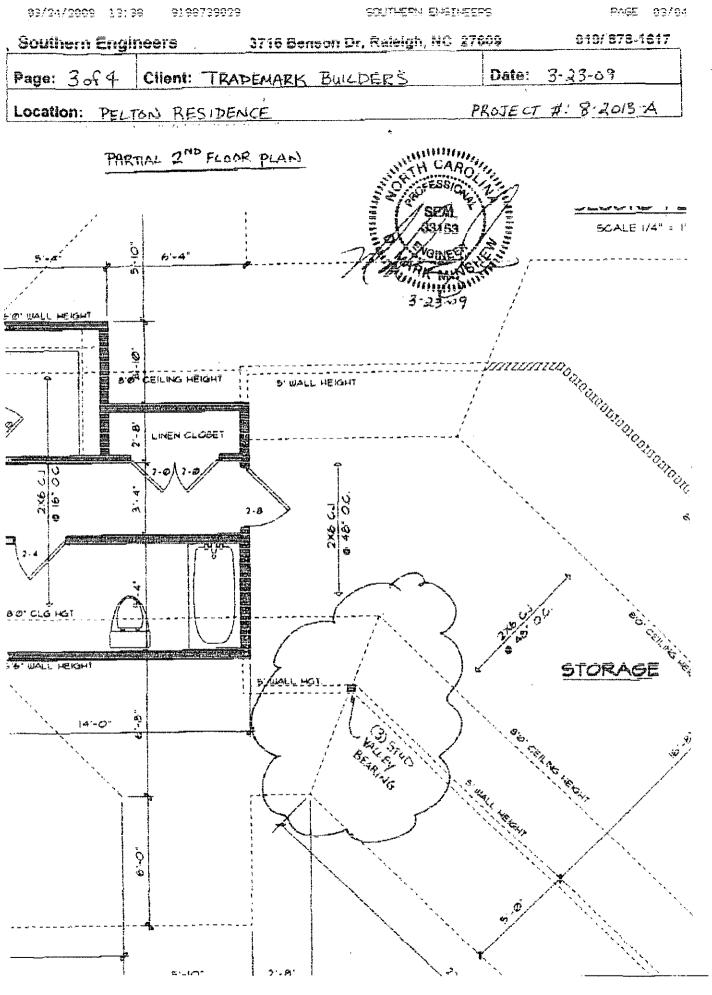

Mark Minshew, P.E. Southern Engineers, P.A.

SOUTHERN ENGINEERS

James Herman, PE – Owner

Consulting Structural Engineers

TO: TRADEMARK BUILDERS, INC. P.O. BOX 142 WILLOW SPRINGS, NC 27592

## \*\*\*\*\*\* VERIFICATION LETTER \*\*\*\*\*\*\*

VIA EMAIL: nmclamb@trademarkbuilderinc.com

**PROJECT #:** 8-2013-B

**PAGE:** 1 of 1

**DATE:** April 30, 2009

LOCATION: Pelton Residence, Lot 17, Sherman Pines

PLANS REF: Pelton Residence for Trademark Builders, Inc by Matt Freeman Southern Engineers' Project #: 8-2013

## THE FOLLOWING CHANGE(S) OR PROPOSED CHANGE(S) LISTED BELOW ARE DEVIATIONS OR CLARIFICATIONS FOR THE ABOVE REFERENCED PLANS:

Sitting Room Ceiling Joists: The First Floor Plan shows 14" wood I-Joists spanning front-toback at 19.2" O.C. above the Sitting Room. Options for three different brands of I-Joists were provided on the plan. An offset load bearing wall above is noted to be supported by the ceiling joists. The load from above is roof load.

We were made aware that the option of 14" TJI 210 I-Joists at 19.2" O.C. had been installed above the sitting room. Be advised that the 14" TJI 210 I-Joists at 19.2" O.C. above the sitting room are structurally acceptable to support the offset load bearing wall above.

In closing, I trust that this letter fulfills your requirements at this time. Should you have any further questions, please do not hesitate to call.

Sincerely,

فالانتها

Mark Minshew, P.E. Southern Engineers, P.A.
