To whom it may Concern,

I built a home at 248 Woodland Ridge Dr. Fuquay-Varina, NC 27526. I obtained permits under the presumption that I would be living at that address for a year prior to selling the home. I have run into some financial hardships including loss of job for myself, my wife, and the loss of a renter in my other house. I need to sell the house in order to free up some money to help us get through these tough times. The intention was not to sell the home for a year, however financially things have turned around on my family. This letter is a letter release liabilities that "intent" was not to make an immediate profit but to help my family's current financial situation. I will be listing the home on the Real Estate Market with the approval of Harnett County's Inspection Department.

Sincerely,
Adam Jackson

Harnett County Inspection Department
