Applicant: Chris Pugh

Technician: Richard Del Conte

Customer called in reference to an E-Health issue. His lot as it exists now will not perk for a 4 bedroom home. He has worked with Bryan McSwain and his neighbor on a resolution. Mr. Pugh will be purchasing approximately 15' of additional property, which will then allow for a 4 bed system to be installed.

Bryan is allowing him to proceed with conditions. The improvement permit will be issued for a 2 bedroom home (\$65 revision from original app). This will allow Mr. Pugh to start construction while the new minor subdivision paperwork is being processed.

Once the new lot has been recorded he will then pay a \$65 revision fee to change to a 4 bedroom home and be able to get his operations permit.

An email from Bryan regarding this has been scanned and placed in the folder.

A handwritten signature in black ink, appearing to read "Richard Del Conte".

Rich I spoke with Mr. Pugh about doing the revision for the 4/2 bedroom.  
Once he submits the proper paper work I will be able to issue him a permit.
