Attention : JJ Brenning

RE: Daily Field Report for 03/09/2011
Lot 32 @ Patton's Point, Bill Clark Homes
KAM Project No : 11-0065

Ladies and Gentlemen:

On this date, representative(s) of KAM Engineering Services, P.C. were present to perform construction material testing services at this project site. Our testing and observations for this date include the following:

ST-2 : In place field density testing was performed for Slab on Grade. The field density testing was performed in general accordance with ASTM D1556, using the results of field one-point Proctors and laboratory Proctors for compaction comparison. One(1) in-place field density test was performed on this date. The testing results indicate that in-place compaction and moisture content at the location and depth tested meet or exceed the specified requirements outlined in the project plans and specifications. For additional details of our testing, please refer to the attached Field Density Test Report.

Closing

The testing and observations identified above have been reviewed by our project manager. If you have questions regarding this information, please do not hesitate to contact us.

Respectfully Submitted,
KAM Engineering Services, P.C.

Enclosures : ST-2
