Subject:

Acknowledgement of Intent to Construct Type 5QW Injection Well System

Permit No. WI0600091 Lot 4 Woodlake

Fuquay Varina, NC 27526

Dear Mr. Agnolutto:

On 01/23/2012, the Aquifer Protection Section (APS) received notification of your intent to construct a closed-loop water-only geothermal injection well system for the operation of a ground-source heat pump located at the address referenced above. An individual permit is not required for the construction and operation of this type of geothermal injection well system as long as the following conditions are met:

- 1. The injection well system contains only potable water,
- 2. The injection well system is constructed in accordance with well construction standards specified in North Carolina Administrative Code Title 15A Section 2C Subchapter .0213, and
- 3. The required notification form and associated maps have been completely and accurately submitted.

Failure to comply with all of these conditions constitutes a violation of the North Carolina Well Construction Act and North Carolina Administrative Code Title 15A Section 2C Subchapter .0211(u)(2). Additionally, you should contact the Harnett County Health Department as they may have additional requirements for this type of system. Noncompliance with applicable state, county, or municipal rules and regulations may result in the assessment of civil penalties.

Please contact Mike Rogers at (919) 807-6406 or Michael.Rogers@ncdenr.gov if you have any questions.

Sincerely,

for Debra Watts Supervisor

## NORTH CAROLINA DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES (NCDENR)

# NOTIFICATION OF INTENT TO CONSTRUCT A <u>CLOSED-LOOP</u> GEOTHERMAL <u>WATER-ONLY</u> INJECTION WELL SYSTEM:

## TYPE 5-OW WELL(S)

In Accordance with the provisions of NCAC Title 15A: 02C,0200, please complete this notification and mail to address on the back page (please Print or Type information),

DAT	TE: Jan. 16 , 2012
	Well Type Confirmation: Does the proposed system circulate potable water only (no additives) in continuous piping that completely isolates the fluid from the environment (i.e. closed-loop)?
	Yes _X_ Continue completing this form.
	No Do Not complete this form. Complete other UIC application forms for installing either a 5A7 well (open-loop well injecting potable water into the aquifer) or a 5QM well (closed-loop well containing additives such as R-22, ethanol, or other antifreeze or corrosion inhibitors).
A.	PROPERTY OWNER(S)/APPLICANT(S)
	List each Property Owner listed on property deed (if owned by a business or government agency, state name of
	entity and a representative w/authority for signature): Jeff Jones - Owner
	Stanton Homes-Builder
	Stanton Homes Builder (no physical address assigned yet per Bulda)
	(1) Mailing Address: Lot 4 Wood lake.
	City: Fuquary Varmostate: WZip Code: 27526 County: Harnett
	Home/Office Tele No.: 919 278.8070 Cell No.:
	Email Address: Website:
	(2) Physical Address of Well Site (if different than above):
	City: State: Zip Code: County;
	Home/Office Tele No.: Cell No.:
3.	AUTHORIZED AGENT OF OWNER, IF ANY (if the Permit Applicant does not own the subject property,
	attach a letter from the property owner authorizing Agent to install and operate UIC well)
	Company Name: Lass Heating Cooling Sucs Inc
	Contact Person: Louis agralutto EMAIL Address: Joursair 10 bellsoutt. no
	Address: 58/3 Leonar La
	one Raiseral sent Contrate Trials consultable
	Office Tele No.: 919781-8435 Cell No.:
	Website Address of Company, if any:

	Office Tele No.:336-468-4440 Cell No.:336-374-8736
D.	HEAT PUMP CONTRACTOR INFORMATION (if different than driller)
	Company Name: Louis Heating · Cooling Dervices Inc
	Contact Person: LOUIS agrolutto EMAIL Address: LOUISOUT LO bellsouth no
	Address: 3813 Lease Lane
	City: Ralcial NC zip Code: 27617 county: Wate
	Office Tele No.: 919781.8435 Cell No.:
E.	STATUS OF APPLICANT
200	Private: Federal: Commercial:
	State: Municipal: Native American Lands:
F.	INJECTION PROCEDURE (briefly describe how the injection well(s) will be used)
	They will be used for closed loop
	geothernal
3.	WELL CONSTRUCTION DATA
•	(1) Proposed date to be constructed:Number of borings;
	Approximate depth of each boring (feet): 340
	(2) Type of tubing to be used (copper, PVC, etc): Pulis used for a cothermal
	(3) Well casing. Is the well(s) cased? (check either (a.) Yes or (b) No below)
	(a) Yes if yes, then provide casing information below
	Type:galvanized steelblack steelplastioother (specify)
	Casing depth: Fromtofeet (reference to land surface)
	Casing extends to above groundinches
	(b) No
	(4) Growt Info (material surrounding well easing and/or piping):  (a) Grout type: Neat Cement Bentonite Other (specify)
	(b) Grout placement: Pumping Pressure Other
	(c) Growt dropte with hing (reference to lead to few): in the BOO to 10 (real)
	if well has rading, indicate groun depth; fices 10 - (fiet)

### H. INJECTION-RELATED EQUIPMENT

Attach a diagram showing the engineering layout or proposed modification of the injection equipment and exterior piping/tubing associated with the injection operation. The manufacturer's brochure may provide supplementary information.

## I. LOCATION OF WELL(S)

Attach two copies of maps showing the following information:

- (1) Include a Site Map (can be drawn) showing: buildings, property lines, surface water bodies, potential sources of groundwater contamination and the orientation of and distances between the proposed well(s) and any existing well(s) or waste disposal facilities such as septic tanks or drain fields located within 200 feet of the geothermal heat pump well system. Label all features clearly and include a north arrow.
- (2) The Site Map must show the subject property in relation to the surrounding area by using at least two fixed reference points such as roads, streams, and/or highway intersections.

#### J. CERTIFICATION

Note: This Permit Application must be signed by each person appearing on the recorded legal property deed.

"I hereby certify, under penalty of law, that I have personally examined and am familiar with the information submitted in this document and all attachments thereto and that, based on my inquiry of those individuals immediately responsible for obtaining said information, I believe that the information is true, accurate and complete. I am aware that there are significant penalties, including the possibility of fines and imprisonment, for submitting false information. I agree to construct, operate, maintain, repair, and if applicable, abandon the injection well and all related appurtenances in accordance with the approved specifications and conditions of the Permit."
