MEMO (3/12/2013)

To: Danny Norris

From: Mike Eaker 

Re: Ballard Woods Evaluations (Lots 1, 109, 144, 150 & 152)

I have evaluated the lots and existing consultant septic proposals as you requested. Recommendations are as follows:

- 1) Lot 1 appears to have sufficient space to support a 3 bedroom home (typical 40' x 60' box). We will need to complete a septic design once you decide on a house plan and get the lot surveyed (I could not find any corners). The health department has not previously evaluated this lot.
- 2) Lot 144 will work with the Brentwood II. I agree with the design and refreshed the flagging provided by Central Carolina soil.
- 3) Lot 150 will not work with the Avalon (it is too deep). The maximum house depth for this lot is 50 feet (width wont really matter). I agree with the design and refreshed the flagging provided by Central Carolina soil. Please submit a plot plan with a house no deeper than 50 feet.
- 4) Lot 152 will work with the Manchester II (as long as it fits in the sketch shown by Central Carolina; there was no plot plan attached from you). I agree with the design and refreshed the flagging provided by Central Carolina soil.

5) Lot 109 will work with the Cape. I have amended the design and refreshed the flagging provided by Chandler soil (see attached).

Let me know if you have questions!
