RE: Engineering – Foundation Slab Fill
Lot 51 Trotters Ridge Subdivision
Lillington, Harnett County, NC
Job No.: 14DDM-0602B

To whom it may concern/ Inspections Dept.:

The undersigned arrived on-site 5-2-13 to observe and test the in-place bearing conditions for the above referenced site. Based on the testing (Per ASTM Special publication 399) the bearing materials (Tan silty sands (Unified Soil Classification System – SM)) were adequate to support the planned structure. Based on the observations and testing the bearing soils for the footings will provide adequate support.

Sincerely,

DEM/14DDM-0602B

David Miller, PE
