RE: No approved septic system location – 752 Clayhole Road - Complaint #2217

Dear Mr. & Mrs. Sanchez,

A complaint was received by this office referencing your property at 752 Clayhole Road concerning an unapproved septic system. It stated that there was no septic tank or drain field servicing the home/business.

Please refer to the following:

You are hereby notified that you are violating the Rules and Regulations adopted by the North Carolina Commission for Health Services in accordance with requirements of Article 11 Chapter 130A-335 (a) of General Statutes of North Carolina. A person owning or controlling a residence, place of business or a place of public assembly shall provide an approved wastewater system. A wastewater system may include components for collection, treatment and disposal of wastewater.

It is important that you call our office as soon as possible so that we may rectify the situation. If you cannot provide official documentation of the existence of a septic system or cannot demonstrate that a septic system is servicing your property you will have to apply for an Improvement Permit to install one. In order to do this we will need a recorded survey map and deed to the property. You will need to apply for a Land Use Application with Central Permitting located at 108 E. Front Street, Lillington.

Due to the circumstance of this problem you are required to correct this problem within 30 days from this date. The continuation of this violation may constitute a health hazard, and if you do not comply within the allotted time frame legal action will be initiated.

Please contact this office immediately to discuss your plan of action. I can be contacted at 893-7547 Monday-Friday, from 8:00-9:00 a.m.

Sincerely,

Graham H. Byrd, R.E.H.S.
Environmental Health Supervisor
Harnett County Department of Public Health
