----- COMMENTS AND NOTES -----

Mark E. Jones, PE
Structural Engineering and Design

March 20, 2018

Karen Wood
192 Millwood Lane
Angier, NC 27501

Ref: Site Observations and Analysis
192 Millwood Lane
Angier, NC
Project No. 17-298

To Whom it may concern;

The above referenced site was observed on March 19, 2018 for the following items:

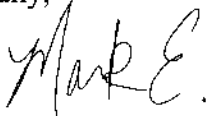

1. Verify header above crawl access.

Based on analysis, the conclusions regarding the condition(s) are:

1. The builder has provided a 2-2x10 header across the crawl access opening. There is floor and roof load as well as a point load at this location. The 2-2x10 header is adequate to support the imposed loads. No action is required.

Thank you for this opportunity to assist you. If you have any questions or need any further assistance, please do not hesitate to call.

Respectfully,

Mark E. Jones, PE
