RE: Structural

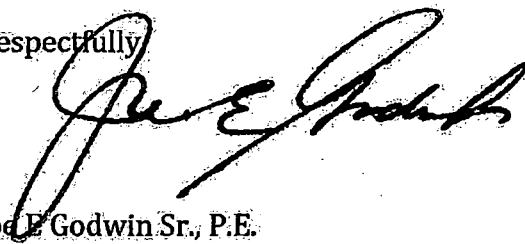

Subject: 4468 Spring Hill Church Road  
Lillington, North Carolina 27546

To Whom It May Concern:

Our office has performed a structural evaluation of the site addressed above. The roof truss layout has been issued to Enoch Engineers P.A. by Signature Home Builders. The roof system of the site addressed above has been changed from the original plans of conventional framing to now show a clear span truss of 34 feet for (5) roof trusses labeled B2. The removal of the lugg footing or thickened slab under the B2 type trusses has been found adequate.

If we may be of further assistance, please feel free to call.

Respectfully

Joe E. Godwin Sr., P.E.  
Enoch Engineers, P.A.
