Framing inspection

Based on a request of the inspector, I reviewed 2 structural items that had been modified for code compliance:

Item 1: The Master Bedroom tray ceiling framing was modified from the original design. The revised framing for the tray ceiling is acceptable.

Item 2: The triple 2x10 above the large 2<sup>nd</sup> floor dormer was ripped down to a triple 8 ¾" beam. This beam size is acceptable.

These revisions meet all the requirements of the 2012 North Carolina Building Code for Residences.
