County Health Department Application for Improvement Permit and/or Authorization to Construct

IF THE INFORMATION IN THIS APPLICATION IS FALSIFIED, CHANGED, OR THE SITE IS ALTERED, THEN THE IMPROVEMENT PERMIT OR AUTHORIZATION TO CONSTRUCT SHALL BECOME INVALID. The permit is valid for either 60 months or without expiration depending upon documentation submitted. (Complete site plan = 60 months; Complete plat = without expiration)

Environmental Health New Septic System

- **All property irons must be made visible.** Place "pink property flags" on each corner iron of lot. All property lines must be clearly flagged approximately every 50 feet between corners.
- Place "orange house corner flags" at each corner of the proposed structure. Also flag driveways, garages, decks, out buildings, swimming pools, etc. Place flags per site plan developed at/for Central Permitting.
- Place orange Environmental Health card in location that is easily viewed from road to assist in locating property.
- If property is thickly wooded, Environmental Health requires that you clean out the **undergrowth** to allow the soil evaluation to be performed. Inspectors should be able to walk freely around site. **Do not grade property.**
- **All lots to be addressed within 10 business days after confirmation. \$25.00 return trip fee may be incurred for failure to uncover outlet lid, mark house corners and property lines, etc. once lot confirmed ready.**

Environmental Health Existing Tank Inspections

- Follow above instructions for placing flags and card on property:
- Prepare for inspection by removing soil over **outlet end** of tank as diagram indicates, and lift lid straight up (if possible) and then **put lid back in place.** (Unless inspection is for a septic tank in a mobile home park)

DO NOT LEAVE LIDS OFF OF SEPTIC TANK

MORE INFORMATION MAY BE REQUIRED TO COMPLETE ANY INSPECTION

SEPTIC

If applying for authorization to construct please indicate desired system type(s): can be ranked in order of preference, must choose one.

- Accepted
 Innovative
 Conventional
 Any
 Alternative
 Other _____

The applicant shall notify the local health department upon submittal of this application if any of the following apply to the property in question. If the answer is "yes", applicant **MUST ATTACH SUPPORTING DOCUMENTATION**:

- YES NO Does the site contain any Jurisdictional Wetlands?
 YES NO Do you plan to have an irrigation system now or in the future?
 YES NO Does or will the building contain any drains? Please explain. _____
 YES NO Are there any existing wells, springs, waterlines or Wastewater Systems on this property?
 YES NO Is any wastewater going to be generated on the site other than domestic sewage?
 YES NO Is the site subject to approval by any other Public Agency?
 YES NO Are there any Easements or Right of Ways on this property?
 YES NO Does the site contain any existing water, cable, phone or underground electric lines?

If yes please call No Cuts at 800-632-4949 to locate the lines. This is a free service.

I Have Read This Application And Certify That The Information Provided Herein Is True, Complete And Correct, Authorized County And State Officials Are Granted Right Of Entry To Conduct Necessary Inspections To Determine Compliance With Applicable Laws And Rules. I Understand That I Am Solely Responsible For The Proper Identification And Labeling Of All Property Lines And Corners And Making The Site Accessible So That A Complete Site Evaluation Can Be Performed.

Ms. Lindsey Farrar
Mrs. Brandy Farrell

Reference: Final Report for Comprehensive Soil Investigation
Tract 1-A and Tract 1-B

Dear Ms. Farrar and Mrs. Farrell,

A comprehensive soil investigation has been conducted at the above referenced property, located on the western side of Leaflet Church Road (SR 1234) in the Upper Little River Township of Harnett County, North Carolina. The purpose of the investigation was to determine the ability of each lot to support a subsurface sewage waste disposal system and repair area for a typical three or four-bedroom home. All soil ratings and determinations were made in accordance with "Laws and Rules for Sewage Treatment and Disposal Systems, 15A NCAC 18A .1900". It is our understanding that individual septic systems and public water supplies will be utilized at this site. The maximum house footprint used for this evaluation was 50 X 50 feet. Wetlands were not observed on either lot.

Lots 1-A and 1-B were observed to be underlain by provisionally suitable soils for subsurface sewage waste disposal. These provisionally suitable soils were observed to be firm sandy clay loams and friable sandy loams greater than 36 inches and appear adequate to support long term acceptance rates of 0.4 to 0.5 gal/day/sqft. It appears that the soils on each lot are adequate to support a conventional septic system and repair area for at least one residence.

This soil investigation report and map, when provided to the Harnett County Health Department, should allow them to sign the maps for recordation. I appreciate the opportunity to provide this service and hope to be allowed to assist you again in the future. If you have any questions or need additional information, please contact me at your convenience.

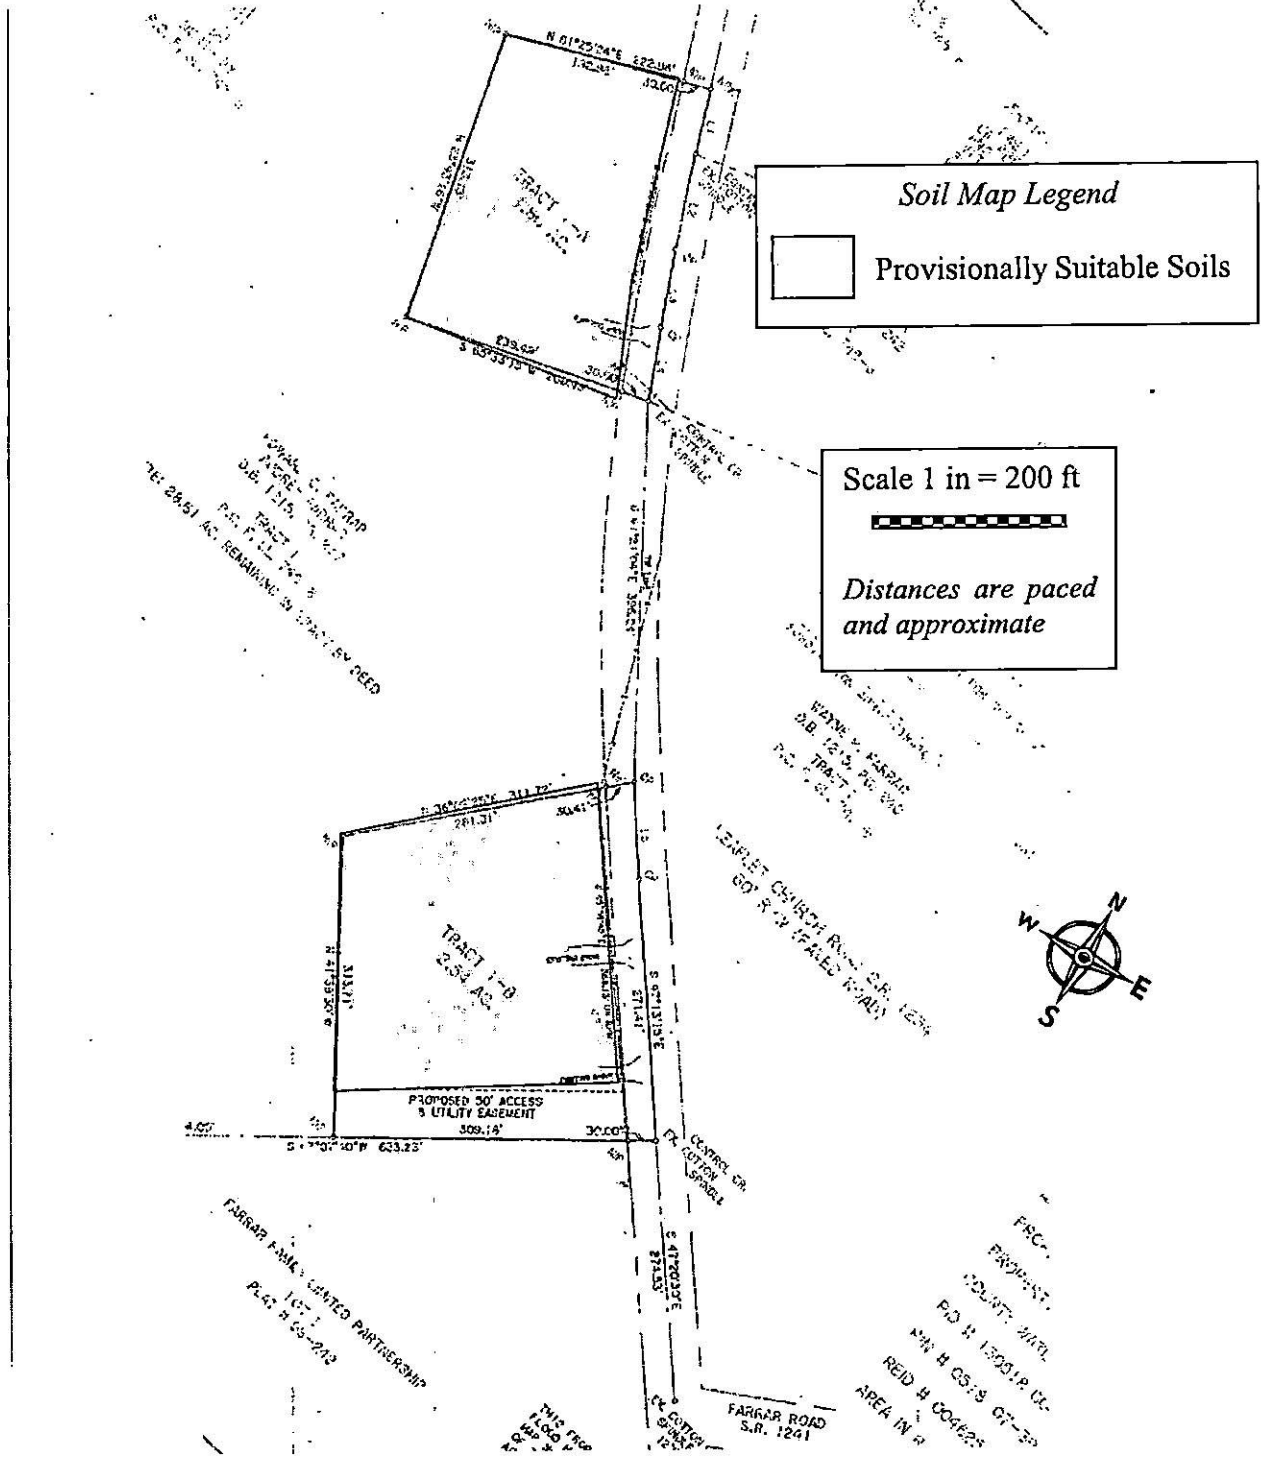

Sincerely,

Hal Owen
Licensed Soil Scientist

PROCEDURES AND GUIDELINES FOR MANUFACTURED HOMES

RA-30 Criteria Certification

I, Brandy Farrell, landowner/agent of Parcel Identification Number 0518-17-0414.00, located in an RA-30 Zoning District, do hereby certify the following:

The multi-section manufactured home shall meet the following appearance standards, verified by zoning inspection approval, prior to the issuance of a Certificate of Occupancy:

1. The structure must be a multi-section unit built to the HUD code for manufactured homes.
2. When located on the site, the longest axis of the unit must be parallel to the lot frontage.
3. The structure must have a pitched roof that is covered with material commonly used in standard residential roofing construction. Said material must be installed properly and be consistent in appearance.
4. The structure must have masonry underpinning that is continuous, permanent and unpierced except for ventilation and access.
5. The exterior siding must consist predominantly of vinyl, aluminum, wood, or hardboard; and must be comparable in composition, appearance, and durability to the exterior siding commonly used in standard residential construction. Said exterior siding shall be in good condition, complete, and not damaged or loose.
6. The minimum lot size must be one (1) acre excluding any street right-of-way and the minimum lot frontage must be 150 feet as measured at the right-of-way line or along an easement whichever applies.
7. The tongue or towing device must be removed.

By signing this form, I acknowledge that I understand and agree to comply with each of the seven (7) appearance criteria listed above for the multi-section manufactured home I propose to place on the above referenced property. I further acknowledge that a Certificate of Occupancy (CO) entitling me to apply for electric service will not be issued until each appearance criteria has been met and approved.
