Ref: Site Observations and Analysis
468 Cedar Rock Trail
Fuquay-Varina, NC
Project No. 18-264

To Whom it may concern;

The above referenced site was visited on January 25, 2020 for the following items:

1. Need engineer letter for over height piers.

Based on analysis, the conclusions regarding the condition(s) are:

1. The referenced property has interior 16"x16" masonry piers, filled solid, that are up to 160" tall. The NC Residential Building Code allows for solid piers to be up to 10x the width in height. The piers are acceptable and no further action is required.

Thank you for this opportunity to assist you. If you have any questions or need any further assistance, please do not hesitate to call.

Respectfully,

Mark E. Jones, PE
