**RE: Status of Existing Tank Permit Application #05-5-12793  
#05-5-12792**

Dear Mr. Kramer,

On August 17, 2005 an Environmental Health Specialist from the Harnett County Health Department attempted to evaluate your property for the purpose of issuing an Existing Tank Permit. This individual was unable to evaluate your property for one or more of the following reasons.

- 1. Uncover outlet lid on septic tank and break seal
- 2. Have system pumped out
- 3. Replace sanitary T
- 4. Other ***Go to Central Permitting and fill out application for soil evaluation. As of now pool is too close to existing drain line. Our 1<sup>st</sup> priority is to correct that situation since pool is up. Once we have that situation figured out, then we will work on additional bedrooms to the home. You will need to reconfirm through the IVR system at the number listed below when ready.***

When you have completed this and called 893-7527 to confirm that the items mentioned have been corrected, we will then reschedule your property for evaluation.

Sincerely,

Joe West, R.S.  
Environmental Health Specialist  
Harnett County Department of Public Health
