RE: Status of Existing Tank Permit Application #06-5-15706

To Whom It May Concern:

On September 14, 2006 an Environmental Health Specialist from the Harnett County Health Department attempted to evaluate your property for the purpose of issuing an Existing Tank Permit. This individual was unable to evaluate your property for one or more of the following reasons.

- 1. Uncover outlet lid on septic tank and break seal
- 2. Have system pumped out
- 3. Replace sanitary T
- 4. Other Pool will be on top of repair area and cannot be approved that way. Please go to Central Permitting and fill out soil evaluation (fees will need to be paid) so I will be able to locate another possible repair site on this property. Please mark property lines and have all underground utilities marked before I come out.

Sincerely,

Jde West, R.S.
Environmental Health Specialist
Harnett County Department of Public Health
