

## COMMENTS:

11/1/2011 BR met with Clint Adams (Aztec Evergreen) on property. Discussed setting tanks outside of parking area. Therefore traffic tanks would not be required (see permit for possible locations)

2/20/2014 Ricky Holland called with concerns about the septic system for the Auction House (Jimmy Johnson).

He stated that every 6 months Mr. Johnson would have catered music events on Friday & Saturday. Approx. 200-300 people per day. I told him the system was not designed for that & I recommend having the tanks pumped prior to the events.
