BP006U01

Harnett County Edit Narrative

5/05/17 13:57:52

Application number, type . . : 17 50041276 CP NEW COMMERCIAL BLDG/ENTER Property address : 1560 GEORGE PERRY LEE RD

Type information, press Enter.

T/S: 05/05/2017 01:57 PM KSLATTUM ---
1. All commercial plans are required by the state to be submitted with a Building Code Summary, Appendix B of the Administrative Code. 2. If this building is going to be used for truck body production, it will be classified as F1 3. Occupant load for the builing should be 40 people which requires two 3 foot personnel doors, one at each end. This will also require emergency lighting and exit signs for these doors. Your electrician should be able to add to your electrical plan.

Incidental Uses (Table 508.2.5):
☐ Furnace room where any piece of equipment is over 400,000 Btu per hour input
Rooms with boilers where the largest piece of equipment is over 15 psi and 10 horsepower
Refrigerant machine room
☐ Hydrogen cutoff rooms, not classified as Group H
☐ Incinerator rooms
Paint shops, not classified as Group H, located in occupancies other than Group F
☐ Laboratories and vocational shops, not classified as Group H. located in a Group E or I-2 occupancy
Laundry rooms over 100 square feet
Group I-3 cells equipped with padded surfaces
Group I-2 waste and linen collection rooms
Waste and linen collection rooms over 100 square feet
Stationary storage battery systems having a liquid electrolyte capacity of more than 50 gallons, or a lithium-
ion capacity of 1,000 pounds used for facility standby power, emergency power or uninterrupted power supplies
☐ Rooms containing fire pumps
Group I-2 storage rooms over 100 square feet
Group I-2 commercial kitchens
Group I-2 laundries equal to or less than 100 square feet
Group I-2 rooms or spaces that contain fuel-fired heating equipment

ENERGY SUMMARY

ENERGY REQUIREMENTS:

The following data shall be considered minimum and any special attribute required to meet the energy code shall also be provided. Each Designer shall furnish the required portions of the project information for the plan data sheet. If performance method, state the annual energy cost for the standard reference design vs annual energy cost for the proposed design.

Method of Compliance: Prescriptive (Energy Code) Performance (Energy Code) (ASHRAE 90.1) Performance (ASHRAE 90.1)	
Performance (Energy Code) Prescriptive (ASHRAE 90.1)	
Performance (Energy Code) Prescriptive (ASHRAE 90.1)	
Prescriptive (ASHRAE 90.1)	
<u> </u>	
Performance (ASHRAE 90.1)	
THERMAL ENVELOPE	
Roof/ceiling Assembly (each assembly)	
Description of assembly:	
U-Value of total assembly:	
R-Value of insulation:	
Skylights in each assembly:	
U-Value of skylight:	
total square footage of skylights in each assembly:	
Exterior Walls (each assembly)	
Description of assembly:	
U-Value of total assembly:	····
R-Value of insulation:	
Openings (windows or doors with glazing)	
U-Value of assembly:	
Solar heat gain coefficient:	
projection factor:	
Door R-Values:	
Walls below grade (each assembly)	
Description of assembles	
Description of assembly:	
U-Value of total assembly: R-Value of insulation:	
K-value of insulation:	
Floors over unconditioned space (each assembly)	
Description of assembly:	
U-Value of total assembly:	
R-Value of insulation:	
Floors slab on grade
