RE: Status of Improvement Permit Application #3-5-5434

To Whom It May Concern:

On September 6, 2002, a soil evaluation was performed on lot 81, in Victoria Hills Subdivision for the purpose of issuing an Improvement Permit. The soil on the property meets all laws and rules set forth by the state of North Carolina sewage treatment and disposal systems. Only after the lot is cleared and a proper determination of the system layout can be made, will an Improvement Permit be issued.

Sincerely,
