Subject: Re: Rewire Electric for billboard sign

Good Morning,

Thank you for checking in on this request. Yes it is fine to issue the electric permit for this sign. They are replacing it to the previously approved specs by NCDOT. They are not expanding the sign.

Thanks,
Snow Bowden

Good Morning,

We received and application for electrical rewiring of a billboard sign at 302 E. Jackson Blvd. I wanted to check with you before approving permit.
