Re: SLS 7
Meter Relocation
Coats-Buies Creek Water Sewer District

Mr. Sikes,

The job description for the SLS 7 meter relocation is as follows:

Harnett Regional Water, via contracted electrician Sanford Electrical Contractors, is relocating an existing electric meter for a public sewer pump station. The goal is to relocate the main electricity line from overhead to underground.

As per the attached plan set, the ground elevation at pump station is 162'. Per FRIS, the base flood elevation is 161.6'. The new electrical meter will be pole mounted over 3' above the ground, and therefore, above the 100-year flood level.

Sincerely,

Steve Ward, Director

SW/sc

cc: Glenn McFadden, Assistant Director
Rudy Wells, Utility Civil Engineer
Chad Everette, Utility Construction Inspector

1006 Leslie Campbell Ave;
sewer lift station #7
