**RE: Failing system located at: 102 Ramsey Ct, Cameron, NC 28326**

Mr. and Mrs. Minguela:

An on-site inspection was made on your property on April 17, 2020 by an Environmental Health Specialist and observed a failing septic system due to exceeding the permitted amount of residents within the home.

You are hereby notified that you are violating the Rules and Regulations adopted by the North Carolina Commission for Health Services in accordance with requirements of Article 11 Chapter 130A-335 (a) of General Statutes of North Carolina. Any person owning or controlling a residence, place of business, or place of public assembly containing water using fixtures connected to a water supply source shall discharge all wastewater directly to an approved wastewater system permitted for that specific use. A wastewater system may include components for collection, treatment and disposal of wastewater.

We request that you either remove the number of residents dwelling in the home to six occupants or to Pump and Haul sewage as needed to prevent septic overflow. The continuation of this violation may constitute a health hazard, and **if you do not comply we will be forced to obtain legal action.**

I can be contacted at 893-7547 Monday-Friday, from 8:00-9:00 a.m.

Sincerely,

Brittany Adams, R.E.H.S.-I  
Environmental Health Program Specialist  
Harnett County Department of Public Health  
Environmental Health Section
