**Re: Status of Repair Permit for: 139 Lane Road Dunn, NC 28334**

Mrs. Williams:

An attempt was made to evaluate your property for the purpose of issuing a Repair Permit. The evaluation could not be completed for one or more of the following reasons.

- 1. Use pink flags to mark property lines and irons that are set by surveyor need to be visible.
- 2. Use orange flags to mark house corners (*\$25.00 fee incurred*)
- 3. Directions not clear to property (*\$25.00 fee incurred*)
- 4. Property needs only brush or vegetation removed
- 5. Driveway not shown on site plan
- 6. Backhoe pits required
- 7. **Other- Onsite evaluation shows tank not uncovered and no pooling of septic fluid in yard. Soil evaluation shows soil is generally unsuitable to repair in vicinity of home.**

**Homeowner advised to do full maintenance of system in advance of looking into septic repair. Recommended to evaluate both ends of tank and distribution method for blockages or damage. Repair as needed. To receive a repair permit (new lines, tank) the applicant would be required to provide soil scientist proposal on property. Repair would likely require unconventional repair.**

**Coordinate with certified septic contractor and reconfirm if traditional maintenance is unsuccessful.**

Your application will be put on hold until the selected items above have been addressed. When completed **please call 910-893-7547 to confirm** that the items mentioned have been corrected, we will then reschedule your property for evaluation.

Sincerely,

Andrew Currin, R.E.H.S.
