RE: Existing Tank Application #EH2412-0004

To whom it may concern

An attempt was made to evaluate the above property for issuing an existing tank permit. The evaluation could not be completed for one or more of the following reasons.

- 1. Uncover outlet lid on septic tank fully and break seal. (\$25.00 fee incurred).
- 2. Have system pumped out
- 3. Need site plan
- 4. Other – You will need to apply for system expansion at Central Permitting. Mark right property line every 50' with property survey corner irons uncovered/demonstrated (as if you were standing on street facing the house.) Have septic contractor replace degrading sanitary T in septic tank with filter. Once the following are completed a permit will be issued to add more line to the existing system to upgrade it to a 4-bedroom.**

Your application will be put on hold until the selected items above have been addressed. When completed **call 893-7525 to confirm** that the items mentioned have been corrected we will then reschedule your property for evaluation.

Sincerely,

Reynold Levocz, R.E.H.S.
