Re: Well Construction Permit Application for 202 S. 8th St, Erwin, NC

To Whom It May Concern,

The following information is provided under the Site Plan section:

1. Approximate property lines are marked in black Sharpie
2. This well is intended for a lawn irrigation system to be installed at later date and to replenish our swimming pool water, thus avoiding over-consumption of the regional water system (HRW) supply and alleviate accompanying sewer fees for water consumed during lawn irrigation and pool replenishment.
3. Well location is marked with circled X on the site plan.
4. There are no known existing or proposed sewer lines within 100' of the proposed well.
5. There are no known existing wells within 100'.
6. There are no known above or below ground storage tanks.
7. There are no other known contamination sources within 100' of the proposed well.
8. There are no known existing or pending groundwater restrictions or variances pertaining to the property.

Sincerely,

A handwritten signature in black ink, appearing to read "Howard W. McKinney, Jr.", written over the printed name.

Howard W. McKinney, Jr.
