

B&B CATERING INC.

687 Bethel Baptist Road

Spring Lake Nc. 28390

HCHD and or Planning Department,

Thank you for taking time to review my application. Please note it's an unusual application as its an unusual time in our nation.; Covid 19 has put us all in some "first time" positions. Requiring us to consider the whole circumstances. This is not a new construction or a remodel, it's a post covid re-opening.

I have a million dollar commercial kitchen and office that has been open since 7-3-08. I began operation in Harnett county as a caterer April of 1990 (30 years) under health department certification. I continued without a break until covid stopped me in my tracks.

I'm now asking to open on a extremely limited basis for a brief time. My kitchen is unchanged and fully in compliance with fire, walk-in temps and I have my current serve safe managers Certificate posted on the wall.

I have attached all the forms and allot of forms I used to do this process in 2008 when I built the building from scratch. I keep everything.

My new and original application are attached. I'm just asking all those factors be considered. I would like to pen my kitchen NLT 10 November or sooner if we can. Please advise on next steps from here. I currently have a government contracted Café on the FASTC compound in Ft. Pickett, Va. So if you could let me know in advance when we can do the face to face it will allow me time to get to NC.

Thank you for your consideration of reinstating my permit.

V/R
