RE: Wingin' It

Dear Mr. and Mrs. Anderson,

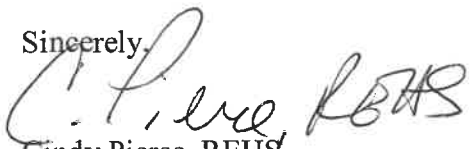

A plan review was received by this office concerning the construction of the above referenced facility. The plans are not approved at this time with the following comments:

- No specification sheets were received for equipment to include proposed walk-in, dish machine, raceways, shelving, etc.
- Food process sheets are incomplete and are lacking detail. There are no process sheets for some items. Please include information on whether hamburgers will be pattied on site or arrive pre-formed? Will fries be cut on site or bought frozen? Will deli meats arrive in bulk to be sliced in house or arrive already sliced? Et cetera.
- Where will the many wing sauces be stored and saucing take place?
- Where will breading of fish, jalapenos, pickles etc take place?
- Where will empty kegs be stored? Will there be keg storage in the walk-in cooler?
- Indicate number and placement of shelving in walk-in cooler.
- Application indicates two prep sinks, plans only show one. Which is correct?
- Indicate true location of mop sink / can wash. Application and plans conflict.
- Soiled dish cart located against food prep table is not approved.
- What will be held in one-door display refrigerator?
- Hot holding provided does not appear to be adequate.
- Prep and storage / dish areas are fractured and flow of food is not clear.
- The consumer advisory on the provided menu is not correct.

Any item not shown on the plans or referenced above will be required to comply with 15A NCAC 18A .2600, **"Rules Governing the Sanitation of Food Service Establishments"** and the **2017 NC Food Code**. This review does not cover any other aspects of construction regulated by other jurisdictions.

If you require further assistance, please call 910-893-7547.

Sincerely,

Cindy Pierce, REHS
