Pyro-Chem Pre-Engineered Fire Suppression System

System is a Pyrochem PCL 300 wet chemical system with a 10 flow point capacity. This application uses 7 flows. Hood and system are existing.

Tank size is being changed to accommodate new equipment.

System uses 3/8" black steel piping, fusible metal links, automatic gas valve, microswitch for supply air shutdown, remote manual release.

Hood - 6'L x 4'W

Duct - 14" round

Equipment - 14" x 24" fryer, 24" x 24" 4 burner stove, 16" wok

Total System Flow Points = 10 : Flow Points Used = 7
