Nil's Mediterranean Cuisine
16 N. Broad St.
Angier, NC 27501

The plans and specifications for the above referenced food service facility were reviewed and are disapproved at this time due to the following:

1. Provide a site plan showing all equipment, location of dry good storage dishwashing areas, can wash and dumpster area. Words on site plan are not legible.
2. Provide a completed food service plan review application. Areas of application are blank or are not filled out with correct information requested. Example: Page 6 is asking for foods held hot and cold. Temperatures were provided in lieu of a list of foods. TBD is listed for several items. These items must be completed in order to do a complete plan review, including hot water calculations.
3. Provide equipment specification sheets for all equipment. If equipment is used, indicate on the specification sheet provided. All used equipment must be field evaluated for compliance.
4. If food is brought from a permitted facility, indicate the name and address of the facility and provide a copy of the facility's permit. Provide a list of foods brought from the facility, how transported and if any further preparation is done after arriving. Include all information on the food process sheets for each menu item.

Please submit requested information to Donna Johnson with Harnett County Central Permitting.

If you have questions, call (910) 893-7547 or email to jturlington@harnett.org.

Sincerely,

Jamie Turlington, REHS
