

September 2nd, 2021

Dear Mr./Mrs.,

On May 26th, 2020, Comfort First Heating & Cooling, replaced your Mini Split at 42 Racquet Ct. Sanford NC 27332. By law, the work that we performed in your home requires a mechanical and electrical permit to be obtained with Harnett County. The permitting process requires that a mechanical and electrical safety inspection be performed and passed by an official inspector, to ensure code compliance.

Comfort First has made attempts to reach out to the new homeowner to schedule the reinspection. All attempts were left unanswered.

Please make contact with Comfort First within ten (10) days of receipt of this letter to coordinate scheduling your final inspection with the Harnett County. Any charges incurred due to failing to schedule the inspection, will be the responsibility of the homeowner. Or feel free to contact the Harnett County directly at 910-893-7525 to schedule your inspection. Your permit number is **EMRES2005-0036**.

Please contact me directly if you have any questions.

If within (10) days we have not heard from you we are required to notify of our inability to reach you to schedule the inspection. After this time, scheduling the inspection will become your responsibility.

Thank you,

Paige Mitchell
