

COMMENTS:

2/15/2013 Site visit made no sewer surfacing in yard.

Talked w/ Mr. + Mrs. Denkin about reason why the toilet backed up. Will go by week of 2/11th to check liquid level in tank, had just been pumped out + tank was not filled enough to flow into drain field.

2/11/2013 Site visit made to check liquid level in tank.

Level was not high enough to leave tank

2/19/2013 Site visit made, level in tank was at ~~base~~ outlet pipe + flowing out
