RE: No approved septic system location- Straight Pipe from septic tank to the ditch- Complaint # 2293

Dear Mr. Allen,

An Environmental Health Specialist made an on-site inspection of your property on 03/03/2017, and observed that there was a straight pipe from septic tank to ditch. Please refer to the following:

You are hereby notified that you are violating the Rules and Regulations adopted by the North Carolina Commission for Health Services in accordance with requirements of Article 11 Chapter 130A-335 (a) of General Statutes of North Carolina. A person owning or controlling a residence, place of business or a place of public assembly shall provide an approved wastewater system. A wastewater system may include components for collection, treatment and disposal of wastewater.

It is important that you call our office as soon as possible so that we may rectify the situation. Since you do not have a septic system it will be necessary to evaluate your property for an Improvement Permit. In order to do this we will need a recorded survey map and deed to the property. You will need to apply for a Land Use Application with Central Permitting located at 108 E. Front Street, Lillington.

Due to the circumstance of this problem you are required to correct this problem within 30 days from this date. The continuation of this violation may constitute a health hazard, and if you do not comply within the allotted time frame we will be forced to obtain legal action.

Please contact this office within 7 days. I can be contacted at 893-7547 Monday-Friday, from 8:00-9:00 a.m.

Sincerely,

Graham Byrd, R.E.H.S.
Environmental Health Supervisor
Harnett County Department of Public Health
Environmental Health Section
