Re: Status of Improvement Permit Application

Dear Kenneth Batts,

On 5-11-98, an Environmental Health Specialist from the Harnett County Health Dept. evaluated your property for the purpose of issuing an Improvement Permit. This individual was unable to issue a permit for this property due to concerns about one or more of the following:

1. Topography and/or landscape position. (.1940)
2. Soil characteristics- texture, structure, mineralogy. (.1941)
3. Soil wetness condition. (.1942)
4. Soil depth. (.1943)
5. Restrictive horizons. (.1944)
6. Available space. (.1945)
7. Other.

This is not a denial notification. This is simply to inform you that the Environmental Health Specialist who evaluated your property was not able to issue a permit and that your application has been referred to Thomas Boyce, this department's designated Soil Scientist, for further review and evaluation. If you need to determine the status of your application, Thomas can be reached at 893-7547 between 8:00 and 9:00 a.m. Monday through Friday.

Sincerely,

Jo W. Arri
