Re: Request – Opting Out of Rough-In Inspections

To Whom It May Concern,

This request is in reference to a letter released by the OSFM dated April 23, 2019 and titled “Statewide Uniform Requirement of Inspection Procedures for Solar Photovoltaic Systems Installed on Residential Rooftops.” Please let this letter serve as an official request to allow Sigora Solar LLC to follow the procedures listed in Option No. 2 when obtaining electrical/building permits and conducting solar system installations – this option does not involve Rough-In Inspections.

If there are any issues with this request, contact Anjelle Authement via email at anjelle.authement@sigorasolar.com or by phone at 434-962-2687.

Thank you,

A handwritten signature in black ink, appearing to read "Logan Landry", written over a faint, circular watermark or background.
